

**ECNP Online Seminar
April 22nd – 23rd 2021.
CROATIA**

ECNP Seminars are small-scale, interactive training courses in neuropsychopharmacology. The aim of ECNP Seminar is to increase the level of knowledge of and skills in neuropsychopharmacology of future leading researchers and practitioners in locations where limited opportunities exist to attend international meetings.

ECNP Seminars offer participants the opportunity to enhance their knowledge and skills in a concentrated learning environment under the guidance of three local and three non-local experts.

ECNP Seminars are for early career researchers and practitioners with a proven interest in the field of neuropsychopharmacology who would like to expand their knowledge and be exposed to different points of view. Each ECNP Seminar is focused on a particular country or region, and are organized for 30-50 participants from that country/region.

If you are interested in attending the **online ECNP Seminar**, which will take place **April 22nd – 23rd 2021**, please send in your personal details (name, gender, date of birth and contact details), CV and a short abstract (50-100 words) to the local coordinator – **Assist. prof. Anamarija Petek Erić, M.D., Ph.D.** in the enclosed **Application Form** for the Seminar. Your abstract can be about a research project which you have completed, are currently involved in, or would like to do in the (near) future. Selected participants will be expected to give a 10-minute presentation about their abstract during the seminar.

Applications for the Seminar are open until April 16th 2021.

There is no registration fee for participants.

Do you have any questions? Contact the local coordinator:

Assist. prof. Anamarija Petek Erić, M.D., Ph.D.
